

**Mr. Rick Mark *M.Ed. (Admin)***  
**CEO & Chair**

Rick has over 20 years experience in the public market place. His leadership positions in various organizations over the last 35 years provides the company with experience in developing short and long term corporate goals, securing financings, building cost-effective property development plans, creating effective communication platforms and managing regulatory functions.

Now in his fifth year with VMS Ventures Inc, Rick is also the CEO and Chair of Harvest Gold Corporation (HVG-TSX.V), a December 2005 "spin off" of Rare Earth Metals Corp, and is the President and CEO of Pancontinental Uranium Corp. (PUC-TSX.V)

---

**Mr. John A. Roozendaal, *B.Sc. Geol.***  
**President and Director**

John is the founding director of VMS Ventures Inc. He has been involved with the mineral exploration industry for over 15 years, focusing on precious, base and specialty metals projects in North America. Of particular significance were exploration programs for nickel in the Thompson Nickel Belt of Manitoba and for high-grade shear-hosted gold in the Yellowknife gold camp.

John also has experience with various aspects of corporate governance through his involvement with private and public boards of directors.

---

**Dr. George H. Gale *B.A. (Ed.), B.Sc., M.Sc., Ph.D.***  
**Vice President of Exploration, Director**

George has been a mineral deposits geologist for more than 40 years, during which he developed expertise on Volcanogenic Massive Sulphide deposits with a particular focus in the Snow Lake VMS belt.

He was the head of the Mineral Deposits Section of the Manitoba Geological Survey from 1977 to 1999 and brings his extensive knowledge and experience with Manitoba geology to all property decisions at VMS Ventures Inc. George also plays an integral role in the planning and execution of the Company's overall exploration strategy.

---

**Dr. Mark Fedikow, *H.B.Sc., M.Sc., Ph.D., P.Eng., P.Geo., C.P.G.***  
**Vice President of Technical Services**

Mark has 33 years of industry and government experience as an exploration geochemist and mineral deposits geologist. He has worked for major and junior mining exploration companies and the Manitoba Geological Survey completing his employment at the Survey as Chief Geologist of the Mineral Deposits Section. In 2001 Mark was the recipient of the Provincial Geologists Medal, a Canadian national award for outstanding geoscientific achievement. He has successfully applied partial and selective extraction geochemical technologies including the Mobile Metal Ions Process (MMI) in exploration programs for lode and placer gold, base metal massive sulphides, platinum group metals, magmatic nickel-copper, porphyry copper deposits and kimberlite / carbonatite in a variety of geological settings and overburden environments. Mark has published numerous articles on mineral deposits and their geochemical expressions in rock, soil and vegetation sample media. He is a Fellow of the Association of Applied Geochemists

---
